### ADDITIONAL INSURANCE/ ASSISTANCE COVERAGE OPTIONS

The FFS has negotiated with Verspieren, its insurance broker, the optional coverage offered to license holders and described in this Information Notice. Each license holder may subscribe to one of these options by choosing the most extensive coverage desired for the risk of bodily injury that the license holder may be exposed to while performing his/her sport. In addition to the Information Notice, license holders may review the general conditions on the FFS website [www.ffi.fr](http://www.ffi.fr) or on its insurance broker's site [www.ffi.verspieren.com](http://www.ffi.verspieren.com).

## REGULATION

### MEDICAL CERTIFICATE AND HEALTH QUESTIONNAIRE

- For minors (on the day the licence is taken out): Obtaining or renewing a Carte Neige licence requires a health questionnaire (questionnaire on minor athletes' state of health, available on the federal website) to be completed jointly by the minor and the person(s) exercising parental authority. Persons exercising parental authority certify that each section in the questionnaire has been answered in the negative. Otherwise they must produce a medical certificate less than 6 months old certifying that there are no contraindications to the practice of the sport or discipline concerned.
- For persons of legal age (on the day the licence is taken out): The first Carte Neige licence requires the presentation of a medical certificate less than one year old certifying that there are no contraindications to the practice of the sport or discipline concerned. For competitor licences, the medical certificate certifies that there are no contraindications to the practice of the sport or discipline concerned in competitions. The renewal<sup>(1)</sup> of a competitor Carte Neige licence requires the presentation of a medical certificate (less than one year old) every 3 years; in the meantime, a health questionnaire must be completed every year. The renewal<sup>(1)</sup> of a Leader or Leisure Carte Neige licence requires the presentation of a medical certificate (less than one year old) every 20 years; in the meantime, a health questionnaire must be completed every year. The questionnaire on adult athletes' state of health is available on the federal website.
- Special case for minors and adults practising the biathlon (competition and leisure): A medical certificate less than one year old is required every year for the biathlon (for a competition if applicable). The biathlon must be indicated on the medical certificate as a discipline, including for licensees who are learning this sport during the season and have already provided a medical certificate.

<sup>(1)</sup> The renewal period is continuous from one year to the next. If the licence period is interrupted, a new medical certificate must be provided.
